- 25X1 1. Two serviceable but closed hangars were seen between the destroyed or heavily damaged buildings of the Arado Aircraft Plant on the eastern border of Brandenburg-Arado airfield (N 53/Z 23). A biplane was standing in front of one of the hangars. Training flights were being made with this plane the morning of 9 October 1950. A fuel dump about 120 meters square and guarded by air force soldiers was at the southwestern edge of the field. There was no flying at the field on 12 October 1950. *
- 25X1 * Comment. No information has so far been received that Brandenburg-Arado airfield is occupied by an air unit. There are no indications of intended reoccupation of the field.
